## TRIPLE DIAMOND

The Epic Speed Triple Diamond Driver is inspired by Tour feedback to create a neutral look at address, with a CG optimized for increased control and workability. It features our new Jailbreak A.I. Speed Frame Technology for incredibly fast ball speeds, in a shape designed with the better player in mind. It's our most popular Epic Speed on Tour, with improved acoustics and better spin consistency than previous Triple Diamond models.

### PROGRESSIVE TOUR HEAD SHAPE

The head combines a higher toe, more face progression and a straighter top line, for a look and setup at address that Tour players prefer. This refined shape helps promote a neutral-to-fade shot shape.

### OPTIMIZED CG FOR INCREASED WORKABILITY

The CG is precisely located for a moderate amount of spin, while maintaining amazing spin consistency that offers a ton of forgiveness on off-center hits.

### EXTRAORDINARY BALL SPEED FROM NEW JAILBREAK A.I. SPEED FRAME

By applying Artificial Intelligence, the new Jailbreak A.I. Speed Frame is designed to enhance vertical, horizontal, and torsional stability to promote an increase in ball speeds across the face.

### NEW A.I. DESIGNED FLASH FACE SS21 FOR BALLSPEEDS ALL ACROSS THE FACE

All Epic Speed Driver heads have a uniquely designed A.I. designed Flash Face SS21 to promote fast ball speeds across a more expansive area in each model and loft.
