

# KEY FEATURES & BENEFITS

## Track Key Metrics & Train More Effectively

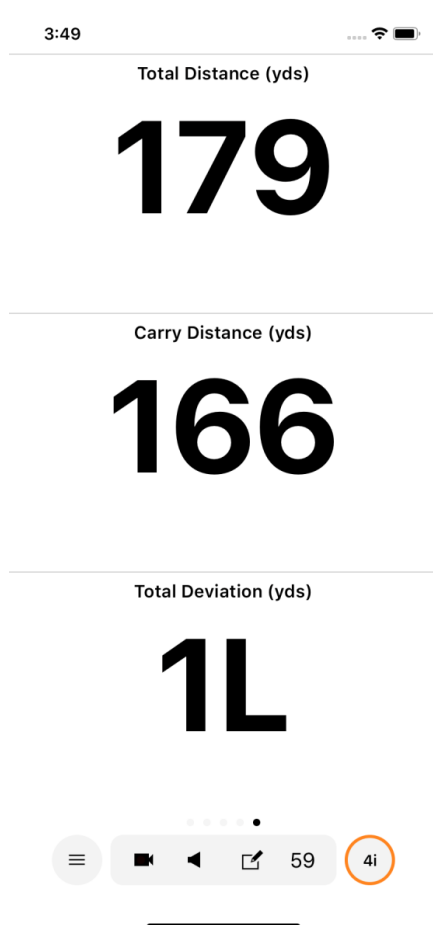

Improve your shot consistency with 20 key metrics:

- club head speed
- club face angle
- club path angle
- face to path
- attack angle
- ball speed
- launch angle
- launch direction
- backspin
- sidespin
- spin axis
- spin rate
- apex height
- smash factor
- carry distance
- total distance
- deviation distances  
(total & carry in % and yards)

Understand your golf strengths and areas for improvement when using *the Driving Range mode*; which tracks stats for each club and shows a shot dispersion chart based on estimated ball flight.

### 59 Shots

CLUB LIST					
Club	Shots	Max Total (yds)	Min Total (yds)	Avg Total (yds)	Avg Carry (yds)
4i	7	194	141	176	163
6i	10	184	128	166	158
8i	11	152	130	141	135
9i	18	154	102	139	132
PW	13	134	100	113	108

SHOT LIST					Edit
Club	Shot	Carry Distance (yds)	Total Distance (yds)	Total Deviation (yds)	Carry Deviation (yds)
PW	1	105	109	26L	25L
PW	2	106	110	4L	4L
PW	3	109	114	18L	17L
PW	4	98	102	8R	8R
PW	5	106	111	10L	9L

- Shows user all metrics the R10 measures after each shot
- Option to configure this to speak out loud any metric they want, silence it, or pipe it through a headset
- Show shot dispersion chart based on estimated ball flight
- Track stats for each club and save them as practice sessions
- NOTE: The club performance section in the golf app will include these stats during a driving range mode session. They will NOT be combined with the club stats recorded during actual rounds (via watch or CT10 sensors); which allows a user to compare their range vs course shots.

# See metrics in REAL TIME!

# Monitor how each club is performing!

# KEY FEATURES & BENEFITS

## Record Video Clips

*See and analyze your own swing with automatically recorded video clips that include the metrics of that swing*

*Features your real stats overlaid on each shot*

*Video is recorded on the phone using the app – where you place the phone determines the shot angle*

# KEY FEATURES & BENEFITS

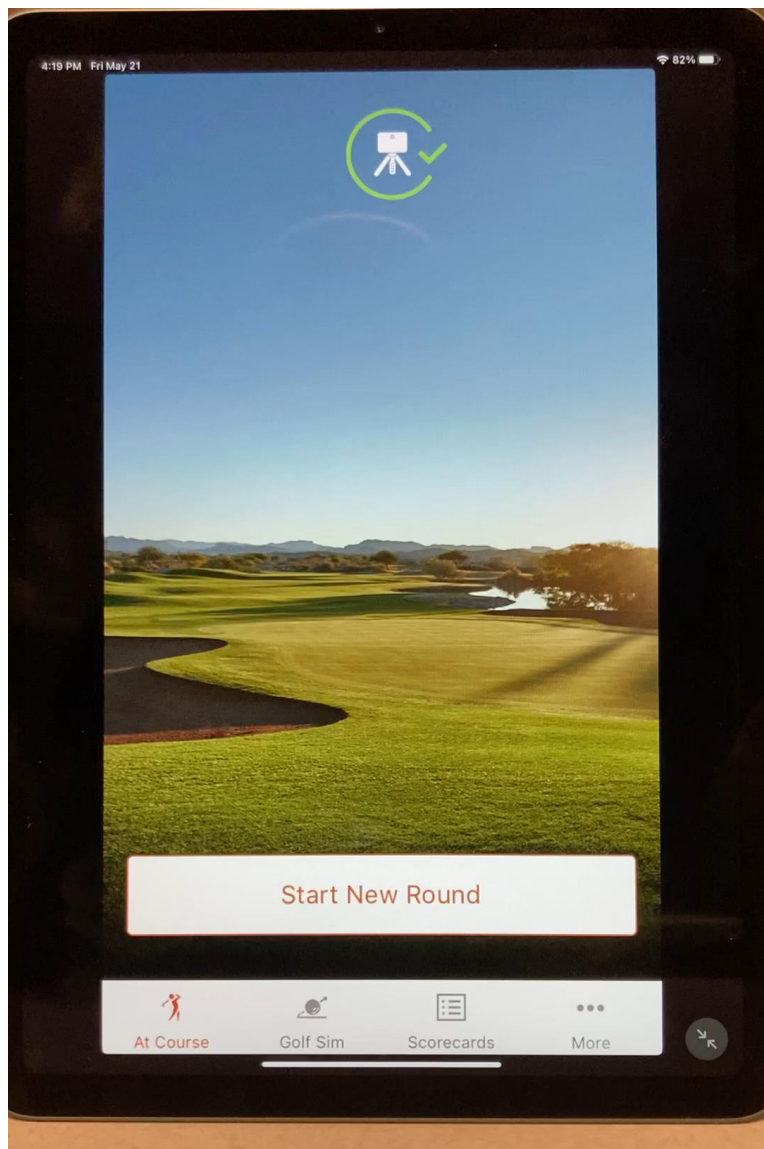

## Includes Phone Mount

*Included phone mount easily attaches to a golf bag for better viewing and easier interaction with the Garmin Golf app.*

*Also can be used to display phone without clipping as a kickstand*

# Garmin Golf App – Free Features

---

Users will continue to get all current features of the app for free!

- *Participate in weekly leaderboards by uploading scorecards*
- *Create tournaments and invite friends*
- *Performance Stats (strokes gained analysis)*
  - *Must have a compatible Garmin device and/or CT10 Club tracking sensors*

What is new with Approach R10 & still free?

- *See your training performance stats in real-time or review later*
  - *This includes club performance during a driving range session*
- *View your recorded videos for swings and see associated metrics*

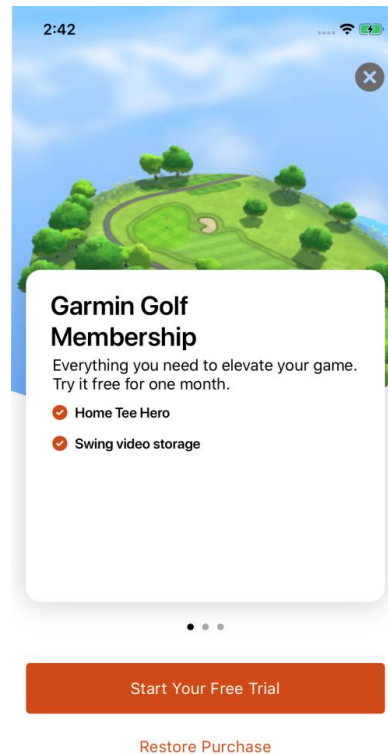

# Garmin Golf App - Premium

**NEW: Subscription Service** → **Monthly: \$9.99** **Annually: \$99.99**  
\$12.99 CAD \$129.99 CAD

## HOME TEE HERO

*Play virtual rounds on over 42,000 courses around the world and take part in a weekly tournament with scores posted to our global leaderboard on the Garmin Golf app.*

- *Up to 4 players can compete at 1 time on the same R10*
- *3D course maps to show players position & ball flight within the app*
- *Weekly Tournament course will be pre-determined (usually following where PGA is playing that week)*
- *Scores posted on global leaderboard*
- *R10 customers will not be competing against G80 customers*

*30 day free trial to try before you buy the premium content.*

## STORE VIDEO CLIPS

*Store video clips of your shots in the cloud to view across multiple devices*
